FOR IMMEDIATE RELEASE

TELESIS TECHNOLOGIES DISPLAYS THE PORTABLE PINSTAMP® TMP4500/470E AT IMTS 2012

Circleville, OH – September 10, 2012 -- Telesis Technologies Inc., a world leader in manufacturing standard and customized marking and engraving equipment systems, presents the **PINSTAMP® TMP4500/470E** marking system. This highly portable hand held single pin marker will be displayed at America's largest manufacturing show, IMTS 2012, the International Manufacturing Technology Show in Chicago, Illinois and is currently available for commercial sale.

PINSTAMP® TMP4500/470E Marker

This electromechanical pin marker eliminates the need for any air supply and is the perfect choice for applications requiring both portability and deep penetration marking. It features an ergonomic dual handle design, weighs less than 6.6 pounds (3.0 kg) and can provide marking speeds up to 3 characters per second. The powerful pin drive design allows the system to mark depths up to 0.018" (0.46mm) in mild steel with a large 1" x 4" (25mm x 100mm) marking window. The marker can be provided with quick disconnect toolposts to be used in bench top applications and even a battery operated option is available.

The marker is interfaced to the included stand alone TMC470 controller which features two serial ports, USB and Ethernet ports for connectivity and can store up to 200 marking patterns.

TMC470 Marker Controller

Telesis Technologies Inc. is a world leader in manufacturing standard and customized permanent parts marking equipment and systems—including gas, solid state and fiber laser, mechanical PinStamp®, BenchMark® dot-peen systems and TeleScribe® scribe marking systems. Since 1971, Telesis has provided durable and accurate parts marking capabilities to companies the world over, from small shops to Fortune 100 manufacturing firms and governmental organizations. Telesis continues to be the most trusted brand in the parts-marking industry for over four decades. For more information on Telesis Technologies Inc., visit our web site at www.telesis.com and see us at IMTS2012, booth N6163 in Chicago, Illinois, September 10-15 2012.
